

- In any application that requires a clear ID photo, replace the text 'Clear ID picture taken within the last six (6) months' with 'Please provide a clear 1x1 ID picture taken within the last six (6) months'.

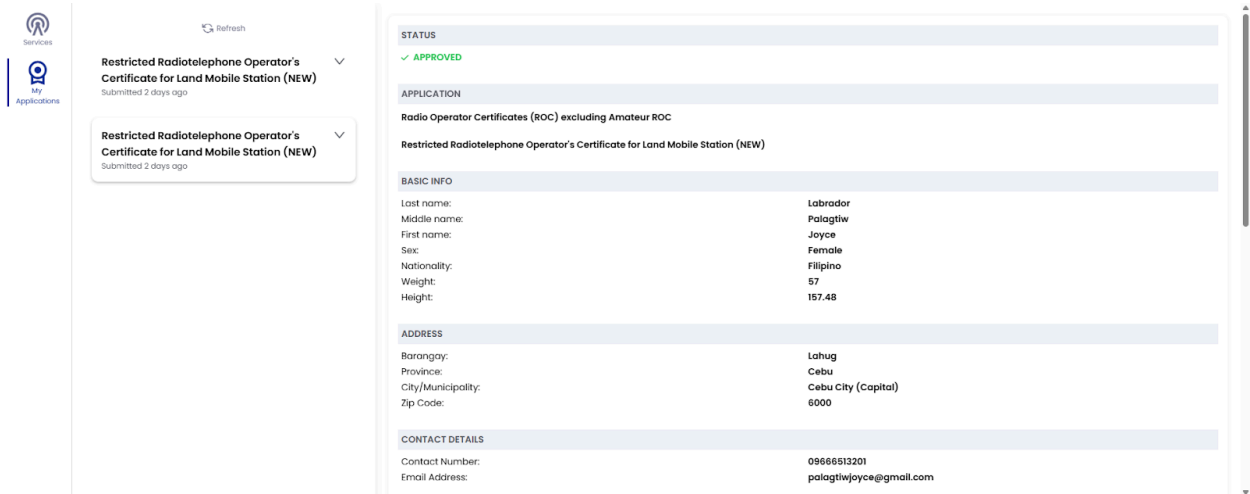

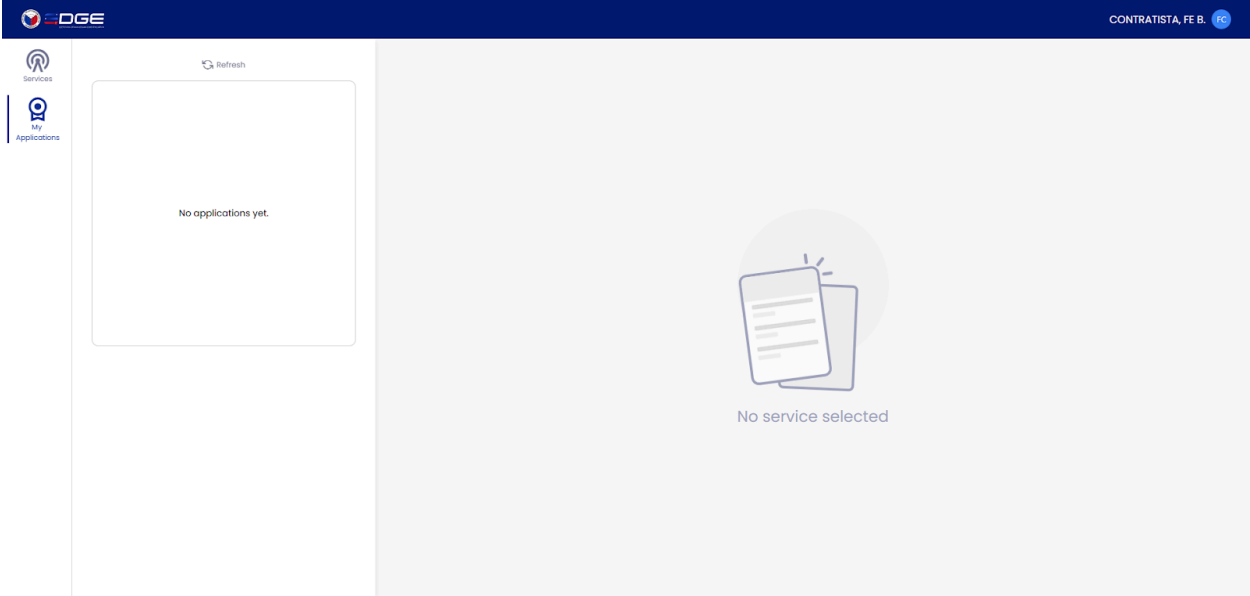

- In the 'Radio Operator Certificates (ROC) excluding Amateur ROC' section under certificates, instead of displaying the validity format as:
 - Date Issued: July 25, 2025
 - Valid Until: July 25, 2025 to February 9, 2028change it to:
 - Date Issued: July 25, 2025
 - Valid Until: February 9, 2028.

Date Issued: Jul 25, 2025
Valid Until: JUL 25, 2025 TO FEB 09, 2028

- There are some applications where, after submission, the evaluator discovers that the required documents are missing and is also unable to edit the Statement of Account (SOA). When the evaluator attempts to approve and edit the SOA, the system responds with an 'Internal Server Error'.

- There is a situation where Client_1 submits his or her application, but afterward, another client—let’s call them Client_2—also submits an application. When this happens, the application initially submitted by Client_1 disappears, and we notice that it has been moved or reassigned to Client_2.

- The zoom-in and zoom-out feature would be better if it also had a rotate button, in case there are attachments that are upside down, as well as a download button to easily save the attachments as PDF or JPEG files.

- The system currently displays: "To be paid on or before: 2/21/2024, 8:00:00 AM." However, the client renewed his/her license on 7/22/2025. In this case, a surcharge of 150% (or 1.5 in decimal) was applied, but the due date shown is incorrect. It should display: "To be paid on or before: 8/21/2025, 8:00:00 AM," because starting 8/22/2025, the surcharge increases to 200% (or 2 in decimal). This issue affects all applications. I have attached the SOA calculation for your reference.
